Note:1) The part numbers indicated in the above table are for products with a brazed seam.
When ordering products with a butted seam, add the prefix "WS" to the part number (ex. V2-5X –>**VWS2-5X**).
2) To order products with nylon insulation, change the "V" in the part number prefix to "N" (ex. V2-4X –>**N2-4X**).
Because nylon absorbs moisture, care must be taken concerning storage.
3) *The crimping will be more secure if the total cross-sectional area of the wire is at least 0.5 mm².
Examples: If the cross-sectional area of the wire is 0.3 mm², fold the wire in two when crimping the terminal.
If the cross-sectional area of the wire is 0.5 mm², crimp the terminal onto the wire as it is.
4) Delivery lead times may vary depending on the product. Contact JST for details.
